

HAVE YOU GOT A SPECIAL PHOTO FOR A TALKING BOARD?

If So, Let's Get To It!

Making a custom talking board, for yourself or as a gift, is SUPER easy! As outlined on the cover of this brochure, all you have to do is e-mail us the background photo. JPG... PNG... PDF... we use any format. Make it a hi-res image for best results.

What Can I Use?

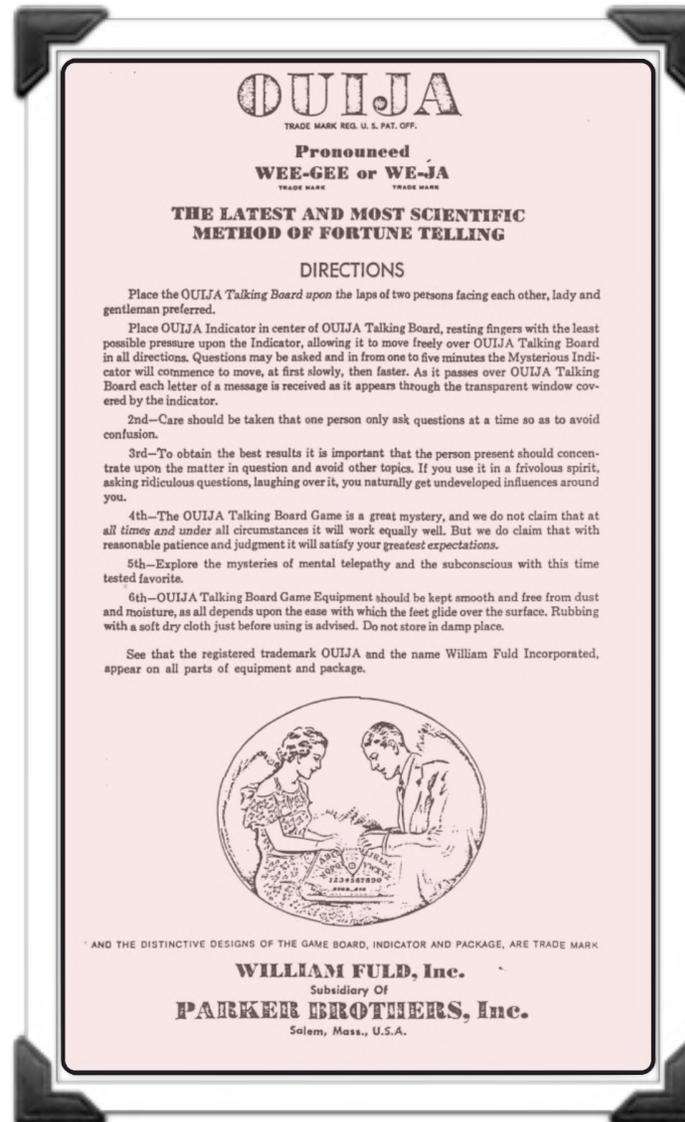

Use any photo that you own! It could be a vacation, a graduation, any event you want to commemorate - or a portrait of a dear friend or relative who has sadly, passed over to the other side. Should you plan to use your talking board to attempt contact with the after-life, that kind of image could be the most appropriate. Here's a board I made for myself, remembering a friend:

Is It Expensive?

NO! You get a laminated 8.5"x11" Custom Talking Board and a planchette for under \$15 including postage! It's a real bargain!

A Message From Rev. Eliot, PhD

Hi! I'm Rev. Eliot, the host of Rev. Eliot's Magickal Window heard Wednesday nights at 11pm on the popular **ASK1RADIO** Network. Thanks for your interest in my Custom Talking Boards. This exciting new product lets you make a Talking Board from a favorite photograph. It's that simple! Talking Boards have a fascinating history, and your own *unique* Talking Board will become part of that history. During the global carnage of World War I, millions of people used the Ouija and other forms of the Talking Board to learn what they could about their loved ones at war. Ouija themed sheet music became a hot seller and Tin Pan Alley avidly filled the desire for these tunes. After the war, books allegedly written by using the Board enjoyed a strong vogue. You can find several of these historic curios on this page, all available at mojoacademy.org. This sales pattern repeated in World War II and even as recently as the modern age of the Vietnam War - when Parker Brothers reported sales of Ouija Boards that out-paced the game Monopoly®! These boards continue to fascinate people, with vintage boards selling for many hundreds of dollars at internet auction sites. I have a few such boards myself, bought when they sold for under \$30. Alas, those days are forever gone. To learn more about these items, see my web page at tiny.cc/TalkingBoards.

TALKING BOARD BOOKS!
